A Strange Apparition—The Dead Child's Ghost.

The New York Presbyteries of late date relates this story:

Night, cold and damp, overtook us eight or ten miles from home, but only a short distance from Judge Blank's, who, after we had arrived at his house, narrated the following unique tale. Said the Judge as follows: Years ago we had in our house a sweet little child, about four years of age, and the object, of course, of a very tender affection. But sickness had its hand upon it. Remedics, promptly resorted to, all proved in vain. Day after day the rose faded from the check, and the fire in the eyes burned low; and at length death closed those eyes and sealed those lips forever; and we learned by trying experience how intense a darkness follows the quenching of one of those little lights of life. A large fire occurred in Gumberland County, Penn., recently, by which seven houses and stores were burnt, involving a loss of \$18,000. The Emperor Napoleon has given orders to prepare a programme for a visit to all the manufacturing towns of the empire. The Commissioner of Patents has decided

follows the quenching of one of those little lights of life.

The time rolling sadly on, brought usat length to the hour appointed for committing our treasure to the ordinary sure custody of the grave. The friends assembled, the customary services were held, the farewell taken, and the little form securely shut beneath the well-serewed coffin-lid, and in due form the grave received its trust. We looked on and saw the earth thrown in, the mound raised above, and the plates of sod neatly adjusted into a great, sheltering roof, and then wended our way back to our desolate home. Evening came on and wore away. My wife had gone into an adjoining room to give some directions to a servant, and I, unfitted by the seene of the day for ought else, had just laid my head on my pillow in our room upon the first floor of the house, when I heard a shriek, and in a moment more, my wife came flying into the room, and springing upon the bed behind me, exclaimed:

"See there! our child! Our child!"
Raising my head, my blood froze within me, and the hair upon my head stood up as I saw the little thing in grave clothes, with open, but manifestly sightless eyes, and pale as when we gave it the last kiss, walking slowly toward us! Had I been alone—had not the extreme terror of my wife compelled me to play the man, I should have leaped from the window and bed without easting a look behind.

The eyes were open in a vacant stare. Now our neighbor had a child of nearly the same age as ours, and its constant companion. But what could bring it to our house at that hour, and in such a plight? Still the suggestion had operated as a sedative upon our excited feelings, and rendered us more capable of calm reflection. And, after a time, we discovered in truth, that the grave clothes were night clothes, and the corpse a sounnambulist! A bold and adroit robbery, by means of a forged order, was perpetrated at the landing of the People's Line of steamboats, in New York, a few nights since. A lady, with a little boy, was going West, by way of Albany, and had secured tickets for the journey. A friend secompanied her to the pier, and left her baggage with the baggage-master, who said he could not give checks until the tickets were presented. The lady, who was already on the boat, had the tickets in her possession, and the little boy went to get them to procure checks. Meantime the friend who had accompanied her had withdrawn, and the baggage was thus left unwatched, except by New Jersey a Sharer in the Ten-Tax Resistance.

A letter from Washington, written by R. S. Coxe, relates an incident, showing that New Jersey was not a whit behind Massachusetts, in resisting the Tea Tax, that led so directly to the war of Independence. The letter says: "In the year 1773-4, as is well known, several vessels were dispatched to the then colonies, loaded with tea; among other places some were sent to Philadelphia. Hearing of the difficulties to be apprehended in landing their cargoes, one or more of these vessels proceeded to Cohansey Creek, a stream of some size, which runs through Cumberland County, and empties into Delaware Bay; while lying at anchor in that stream, several gentlemen of the neighborhood, in broad daylight, and undisguised, went on board the ahip or ships, and threw the whole of the tear into the water. I recollect but one name—that of Major Howell—belonging to a family well known throughout the State. General Giles further informed me that bills of indictineat were found against the parties concerned in this transaction; which, however, as the troubles increased, were never brought to trie, but that those indictments still average. accompanied her had withdrawn, and the baggage was thus left unwatched, except by the baggage-master, while the boy went after the tickets. The time, brief as it was, sufficed for the thief, who had evidently been watching his opportunity. He wrote an order and signed the name which he saw on the trunk, went up to the baggage-master and presented its with the regark that the gentleman had concluded not to go. The baggage-master, without hesitation, gave up the trunks, and the thief made off with them before the boy returned for his checks, and has not since been heard of.

The clergy were allowed by Farini to ex-ercise political rights. When the day of using these political rights came, a majority of these friars openly declared their intentions to vote for the annexation. A burly fellow named Gunnell, says the St. Louis Republican, who has for several years served on the police, and who has only lately withdrawn from the force, about a year ago heard, from a woman of ill-fame, of the whereabouts of a French negress, called Harriet, living on Carre-street, who had a very pretty daughter, nearly white — a quiet, modest young creature, of a handsome and graceful form and of winning manners. Gunnell stayed several weeks in the country, and returned to St. Louis. He did not go to see the victim of his lust, however, but left her to pass through her severe trial as best she could, without him. Hearing he was in the city, the girl, four or five weeks ago, sent word to Captain Guerette, of the lower police district, that she had about reached the period of maternity, and requested the Captain to see Gunnell, and tell him to call upos her. Captain Guerette did so, but Gunnell denied knowing the fenale, and swore roundly that he would never go near her. Shortly after this, the latter gave birth to male twins, and she again sent to Gunnell to come or send her money to assist her in her painful situation.

The San Francisco papers give extended accounts of the arrival there of the Japanese steamer Candiamarrah. The steamer mounts ten guns, viz: 4 cighteen, and 6, thirty-two pounders. The pugilists and their backers started from London in company with a large party of friends, and went to a sequestered spot on the Essex coast, where, at ten minutes before ten o'clock, the cap was thrown into the ring, and the pugilists commenced operations. At this moment there was seen in the distance a policeman, rushing with all his might to the this moment there was seen in the distance a policeman, rushing with all his might to the seene of action, followed by a large body of the force. The pugilists, frightened by this apparition, took to the boats, which were in readiness for them, and were making off across the water to the Kentish coast, when they found they were followed by a fast-sailing skiff belonging to the Thames police, containing a body of the Kent and Essex forces, so that on whichever side the pugilists and their friends landed, four would be sure to follow. After pulling about the river for more than an hour, the pugilistic parties came to the conclusion that no chance was open to them, and they returned to London, in the hope that "they who fight and run away, may live to fight another day."

A Counterpart of William Tell's Apple Feat

in Denmark.

Everybody knows the story of William Tell, but everybody does not know that an apple incident, the exact counterpart of his, is said to have occurred in Denmark. Here is the story, according to an old historian:

is the story, according to an old historian:

Toko, a private soldier in the army of Harold, the Fourth King of the Danes, boasted among others at a feast, that he had so great a dexterity in shooting, that he could shoot through an apple, though but a small one, that was set at a distance from him on the top of a staff. This coming to the King's ears, he compelled him to make the trial on his own son; and that unless at the first shot he should take off the apple, which should be had on his son's head, he should lose his own head as the reward of his beasting. Toko, reduced to this necessity, advised the boy to stand with his head immovable at the twang of the string, and turned his face from him, that he might not fright at the sight of the arrow; and then taking arrows out of his quiver, at the first shot he performed it. The King asked, "Wherefore he took more arrows than one?" "To revenge myself on thee," he said, "if I miscarried," which the King, says the chronicler, took not amiss.

Extraordinary Feline Parturition.—A matroniy cat in New Orleans, says the Cresent, recently became the happy parent of five kittens and a puppy, and the whole family are now doing better than might be expected. The puppy is as complete a young dog as any boasting legitimate maternity ever was, except in the matters of feet and ears, which are exactly those of the feline species. In other respects it is all dog, and one of the prettiest we ever saw, with symmetrical form and close haired, glossy, tan-colored hide. It looks likes rat terrier. The curious little hybrid sucks away among its brother and sister kittens as if it was just as good as any of them, and is-evidently the object of the special care and affection of his mother. The Official Vote of Rhode Island, at the late election for Governor, was—for Sprague, 12,146; for Padelford, 10,577—Sprague's majority, 1,569. The total vote was but 22,733. This is less than the total vote of this county alone, which in 1856 gave 23,963 votes for Presidential electors—or 1,140 more than were given this year in t. whole State of Rhode Island; and the is a fussy little State, too, with even more voters than Delaware. The latter State had but 91,532 of a population in 1850, while little Rhody had 147,545. THE OFFICIAL VOTE OF RHODE ISLAND.

A Post's Orinos of Dancing.—I am an old fellow, says Cowper in one of his letters to Hurdis, but I had once my dancing days as you have now; yet I never could learn half so much of a woman's character by dancing with her, as by conversing with her at home, when I could observe her behavior at the table, at the fireside, and in all trying circumstances of domestic life. We are all good when we are pleased, but she is the good woman who wants not the fiddle to sweeten her.

another note, offering to accept his proposi-tion, which was not done under the advice of Mr. Pryor's friends. Another is, that Mr. Pryor had signified his Mr. Pryor's friends.

Another is, that Mr. Pryor had signified his willingness to meet Mr. Potter in common combat, with such arms as either might choose, outside the frequented walks. These rumors have as yet no foundation in fact. Whatever purpose may be entertained, they doubtless led to the arrest of Mr. Potter yesterday morning. Mr. Pryor has not yet been held to bail, and does not intend to put himself immediately within reach of the authorities. He was in the city, at the Kirkwood House, on Friday night, in company with Messrs. Miles and Keitt.

Mr. Potter had stranged a fortnight ago to go home this week, but will remain in consequence of these reports. His friends do not propose to publish the correspondence now, as the main facts are understood by the public. They are, however, perfectly willing it should be published.

Colonel Lander called upon Mr. Keitt on Friday night to understand whether his presence as a second of Mr. Potter was any longer necessary in connection with the affair, and was assured that it was not.

A CONVENIENT ARRANGEMENT FOR COUGH-ING IN CHURCH.—A correspondent says: "I once spent a Sunday at Lyons, on my way to Italy. I attended the French Protestant Church. The form of worship is very much ilke the Presbyterian, and the minister, after preaching for about fifteen minutes, stopped rather abruptly, pronounced a word which I took to be "allez," and sat down. Immedi-ately the whole congregation, which had hitherto been extremely quiet and attentive, appeared to be seized with fits of coughing, sucezing and expectoration—some blew their noses, some took snuff. By degrees the noises ceased, and after an interval of about five minutes the minister resumed his dis-course, and finished it without interruption." A CONVENIENT ARRANGEMENT FOR COUGH

Another Southern Outradie on Fare Spreen.—The Washington (Ga.) Independent learns that a man by the name of Wood, who was taken up at Abbeville, S. C., last fall, for using unpalateable language to slavery men, and who received the sentence of thirty-nine, lashes at the recent spring term of the court of that piace, suffered the penalty of the law in the public square, a few days since. The punishment was inflicted by Sheriff Moore, with seven switches. He was then immediately placed on the cars and sent out of town.

Success of an American Cleburyman in England.—Rev. H. D. Northrop, the young minister of the Park Congregational Church, Brooklyn, now on a visit to England, has been preaching to great crowds of workingmen at the Pavillon Theater, Whitschapel.
